Notice of Conclusion of Basic Agreement for Business Alliance with Giga Computing

Datasection Inc. resolved on December 2, 2024, to conclude a basic agreement for business alliance with GIGA Computing Technology CO. LTD. (Headquarters: New Taipei City, Taiwan, CEO: Daniel Hou, hereinafter referred to as "GIGA Computing"), one of Taiwan's leading manufactures of IT hardware, high-performance computing and workstation products.

1. Purpose and Reason for the Business Alliance

GIGA Computing was established in 2023 spinning off from GIGA-BYTE TECHNOLOGY CO., LTD. (Headquarters: New Taipei City, Taiwan, Representative: Chairman, Yeh, Pei-Chen TWSE: 2376, hereinafter referred to as "GIGABYTE"), a leading company in high-performance computing and workstation products. GIGA Computing was the enterprise solution product division in GIGABYTE and now is responsible for the development, manufacture and sales of the server business under the GIGABYTE brand, and it also continues to provide solutions that support customers' digital transformation.

Datasection has strengths in large-capacity data analysis and high-performance image analysis using AI. With the operation of AI data centers and the development of AI cloud as new strategies, the "Notice Regarding Establishment of Subsidiary" and "Notice of Establishment of DS AI Infrastructure Global Investment Fund (tentative name)" on August 7, 2024, and the "Notice of Conclusion of Collaboration and Joint Working Agreement for Construction of AI Data Center" dated August 19, we are promoting each initiative. In addition, we have been searching for capable suppliers in order to secure multiple stable procurement of servers equipped with high-performance GPUs, which are the foundation for AI data center operation and AI cloud service deployment.

The two companies have signed a basic agreement for this business alliance with the aim of collaborating on securing servers equipped with state-of-the-art NVIDIA GPUs in the field of AI servers, for which demand is expected to grow in the future, and in the operation of AI data centers, utilizing the technologies, products, resources, and networks of both companies.

2. Details of the Business Alliance

In preparation for this business alliance, discussions are proceeding with a focus on securing servers equipped with state-of-the-art NVIDIA GPUs in the field of AI servers and

the operation of AI data centers, and details such as the specific details of this business alliance will be disclosed appropriately as soon as they are decided based on future discussions.
