### **Notice of Mr. Juan Manuel (Juancho) Irigaray's Appointment as Data Centre & Cloud AI Advisor**

Datasection Inc. is pleased to announce the appointment of Mr. Juan Manuel (Juancho) Irigaray (hereinafter referred to as "Juancho") as our Data Centre & Cloud AI Advisor. With over 20 years of leadership experience in cloud and data center domains, Juancho has played key executive roles in various renowned enterprises, focusing on large-scale infrastructure, cloud, and large scale AI initiatives. His extensive expertise will be instrumental in advancing our AI data center business.

Our company is actively advancing initiatives to expand our AI data center business by securing NVIDIA GPUs, which are in high demand globally, through strategic partnerships with Taiwanese server equipment suppliers. In parallel, we have commenced site evaluations in collaboration with data center construction firms and are progressing with the development and deployment of the "DS Cloudstack"(\*). Our ultimate goal is to establish one of the largest AI data centers in Asia and Europe, featuring a supercluster powered by NVIDIA's GB200 GPUs.

(\*) DS Cloudstack: A proprietary algorithm developed by our company to optimize the operation of large-scale GPU clusters for AI applications.

Furthermore, as disclosed in the notice dated February 6, 2025, titled "Notice regarding the conclusion of Business Alliance Agreement with CUDO Ventures Ltd. for AI Data Centre Business" we are already engaged in discussions with CUDO Ltd. regarding specific projects. Through our collaboration with CUDO, we will be able to secure and provide NVIDIA's cutting-edge GPUs for potential projects under CUDO's management. This partnership will also enable the early deployment of our proprietary "DS Cloudstack" optimizing AI data center operations with large-scale GPU clusters.

Juancho's participation in our company will further accelerate our efforts to expand and grow our AI data center business globally, with a particular focus on Europe. His expertise and leadership will play a key role in driving our strategic initiatives forward. He has held strategic roles at companies like Microsoft, AWS, and Equinix, where he led multimillion-dollar projects and forged key C-level partnerships. Additionally, he is a recognized thought leader, having shared his insights as a speaker and cloud expert at global conferences such as AWS re:Invent, Kubecon, MoneyLIVE Digital Conference among others.

<Professional Background of Juancho>

- **Microsoft** - Country Engineering Lead : Azure Expansion & Microsoft Cloud for Sovereignty
- **Amazon Web Services, Spain & Denmark** : Head of Partner Management Solutions Architect Team in Spain and Enterprise segment in Denmark
- **Equinix, EMEA** : Director of Professional Services & Global Solutions Architects
- **CloudMas** - CTO & Co-Founder : Leading the cloud technology and business development teams, spearheaded the AWS market becoming the first AWS Premier Partner in Spain
